18th Mediterranean Society of Otology & Audiology Congress

21 - 23 November 2024
InterContinental City Stars Hotel,
Cairo - Egypt

M S O A

WELCOME MESSAGE

Dear Friends and Colleagues

Welcome to the 18th edition of the Mediterranean Society of Otology and Audiology (MSOA) Congress! It is with great pleasure that I extend my warmest greetings to all the participants joining us from across the Mediterranean countries and beyond. Egypt has the honor of hosting this prestigious congress, and we are delighted to welcome you in Cairo. The heart of Egypt which perfectly blends modern amenities with the rich cultural heritage of our country.

The MSOA Congress serves as a platform for professionals, researchers, and experts in the field of otology, audiology and phoniatics to come together, share knowledge, and foster collaborations. It is a unique opportunity to expand our understanding, explore innovative approaches, and address the challenges faced in our ever-evolving field.

During these three days, we have meticulously crafted an engaging scientific program that encompasses a wide array of topics and sessions. Renowned speakers from around the world will deliver insightful lectures, present groundbreaking research, and facilitate thought-provoking discussions. Be prepared to immerse yourself in the latest advancements, emerging trends, and best practices in otology, audiology and phoniatics.

We extend our heartfelt gratitude to our sponsors, exhibitors, and partners whose unwavering support has made this congress possible. Their contributions have been invaluable in creating an exceptional event that caters to your professional and personal growth.

We eagerly await the opportunity to welcome you to the 18th MSOA Congress at the Cairo InterContinental City Stars Hotel November 21st – 23rd 2024.

Warm regards,

ABOUT MSOA

The Mediterranean Society of Otolaryngology and Audiology (MSOA) is a distinguished organization established in 1987, dedicated to advancing scientific activities and fostering collaboration in otology, audiology, and phoniatics across the Mediterranean region. We are proud to bring together leading clinicians, researchers, and experts from member countries and around the globe for the MSOA 2024, hosted this year in the dynamic city of Cairo, Egypt.

Taking place from November 21st to 23rd at the Cairo InterContinental City Stars Hotel, this prestigious conference promises a vibrant scientific program. It offers a comprehensive exploration of the latest advancements, emerging trends, and best practices in the fields of otology, audiology, and phoniatics. Attendees will benefit from insightful lectures by renowned international speakers, innovative research presentations, and engaging discussions on various topics.

MSOA is not just a platform for knowledge-sharing but also a unique opportunity for professionals to connect, network, and foster collaborations. Attendees will enjoy an enriching experience that extends beyond the scientific sessions, encouraging fruitful conversations, the exchange of ideas, and the building of lasting relationships within our field. Finally, Lastly, we are excited to have you join us for the 18th MSOA, where we will continue to build our field's future.

Cochlear™ Nucleus® SmartNav System

Optimising Surgical Care

The Nucleus® SmartNav System is an innovative intraoperative solution designed to support surgeons during cochlear implant (CI) surgery. This iPad-based and off-the-ear surgical processor solution aims at improving the overall surgical experience and enhance surgical outcomes by offering the following benefits:

- ✓ Wireless, real-time, actionable insights to support navigation during cochlear implant surgery with regards to angular depth and speed of insertion¹⁻⁷
- ✓ Objective measures to support in-theatre decision-making^{1,8,10}
- ✓ Assurance of correct electrode placement and implant functionality to reduce the need for intraoperative imaging post-electrode insertion^{7,8}
- ✓ Automated implant registration, data transfer and intuitive design to deliver a more seamless workflow⁸
